

Springfields Fuels Limited have been delivering high quality apprenticeships in the Engineering and Manufacturing fields for over 70 years.

The apprenticeship programmes are delivered by Springfields Fuels Limited utilising our qualified and dedicated team, in our purpose built training facility. However in order to enhance the learning and opportunities for the learners we may use subcontractors to deliver content, specifically the academic qualifications required to ensure a the learner receives the best training, this may be level appropriate qualifications in the specific apprenticeship field or may be the delivery of English or maths functional skills should the learner not have reached the required level for their apprenticeship.

We will ensure that the appropriate due diligence is completed for any subcontractor, following the ESFA guidance and checks are in place to ensure that the quality of learning provided by the subcontractor meets the high standards that Springfields Fuels Ltd expect as part of our appreticeship training delivery.

All subcontracting arrangements will be agreed with employers.

The fees charged for management of the subcontracting arrangements will be appropriate to ensuring that the subcontractor is providing an appropriate service, as per agreement in place and will be in line with the required ESFA guidance.
